

**Zeefax works with some of the world's leading manufacturers of electric motors and generators, with a broad selection ranging from ¼ HP to machines exceeding 30, 000 HP**

### Motors

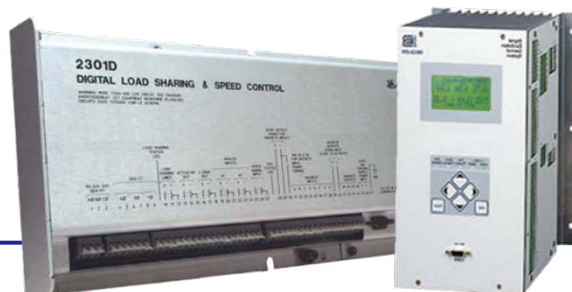

- ❖ High Torque DC Motors ranging in size from 7.5 HP up to 35,000 HP
- ❖ AC induction motors, also with Thermalasatic Epoxy Insulation
- ❖ Horizontal & Vertical Squirrel Cage Induction Motors
- ❖ Induction Motors for pumps
- ❖ Synchronous motors ranging in size from 500 HP up to 30,000 HP
- ❖ Oil well pump motors
- ❖ Open Drip-Proof Motors
- ❖ TEFC Motors ranging in size from 250 HP up to 1000 HP
- ❖ Petroleum and Chemical Motors, designed for continuous operation or for long periods of inactivity in petrochemical plants.

### Generators

- ❖ Diesel generators for land rigs
- ❖ Offshore and marine
- ❖ Captive power systems
- ❖ Governors and voltage regulators
- ❖ Portable Power Control Rooms (PCRs)

## AC and DC Drives

**Zeefax** designs and manufactures drive systems for drilling and marine applications. Based on established analogue or digital technologies, our drive packages, combined with our generator controls, form a complete power control system which can be integrated into a self-contained, portable, power control room.

- ❖ AC Variable Frequency Drives
- ❖ Ross Hill type SCR drive systems
- ❖ Drilling and marine applications
- ❖ Analogue, digital and hybrid technologies
- ❖ Complete power control packages
- ❖ UK based design and manufacture

## Spare Parts

Since 1980, **Zeefax** has built a reputation on its ability to provide excellent and reliable electrical and mechanical engineering services to the Drilling Industry in many countries around the world. This experience, combined with a well trained, highly skilled and motivated multi-disciplined workforce based at our own fully equipped manufacturing facility in the South of England, means that we are the one-stop-shop for all electro-mechanical spare parts.

- ❖ Replacement Motors
- ❖ Bearings and Couplings
- ❖ Carbon Brushes
- ❖ Generator exciter diodes
- ❖ Starters, contactors and overloads
- ❖ Fuses and Circuit Breakers.
