

Since its foundation in 1952, Vibro-Meter in Fribourg (Switzerland) has been supplying reliable, high quality instrumentation for aviation and industrial customers worldwide. Vibro-Meter has been part of the Meggitt group since 1998. With its headquarters in the United Kingdom, Meggitt PLC is an international group of companies specialising in aerospace equipment, high performance sensing systems and defence.

Vibro-Meter's quality policy is fundamental to its success. The excellent reputation of our company is built on our dedication to fulfil our customers' needs, our continuous investment in technical innovation and the skills and experience of our staff.

We develop and supply engine monitoring units for new airliners produced by all leading aircraft manufacturers. For more than 30 years, our aerospace division has been the leading supplier of vibration and pressure monitoring systems for aircraft engines.

The power generation industry widely uses the complete monitoring solutions for turbomachinery offered by our industrial and marine division. Our integrated systems are adopted by major manufacturers of gas turbines, steam turbines and water turbines.

Our international network of subsidiaries and distributors delivers outstanding support worldwide, for both our aerospace and power industry customers.
